

Before Your Wedding -- Marry Insurances

You've waited your whole life for this day and now it's here. You've saved, sacrificed, and lost sleep. All that's left is to say "I do" to insuring the unexpected. We're here to help you understand the best options to insure all aspects of your new life. Our team of experienced insurance specialists will help you consolidate, save, and protect the things that matter. Here we've listed some insurances to consider before the big day.

Wedding Insurances to Consider

Wedding Rings Coverage: protects against any loss or damage to engagement rings or wedding bands.

Wedding Postponement/Cancellation Coverage:

If the unthinkable occurs with weather or vendors, protect your financial investment. Additional event coverage is also available.

Renters Insurance: to ensure that both you and your spouse have coverage over your personal items. Both names will need to be added to your renters policy.

Combining Household and Auto Insurance:

ask one of our insurance specialists if bundling is the best option for you.

Life Insurance: can offset private student loan debt, medical bills, car loans, as well as other personal debts. You'll rest easier knowing that your family will be financially secure in the case of an unlikely casualty.

Protect what you value most by having a conversation with United Insurance. To learn more, please call us at **1.800.734.2333.**

Insurances to Consider Before the Big Day
